PLATFORM CHECKS BEFORE SENDING

shown apart from what ITAD A declares

CHECK	RESULT	EVIDENCE GRADE
Every serial found on a Northwind Cloud manifest	Passed · 16 of 16	4 · Machine-checkable
No serial already approved, sold or certified destroyed	Passed	4 · Machine-checkable
Buyer found on the company register, name and number match	Passed	3 · Independent record
Buyer, parent and ship-to screened against sanctions and denied-party lists	No match	3 · Independent record
Destination is a country the terms allow	Passed	2 · Signed document

"No match" means the buyer was not found on the lists searched. It supports Northwind Cloud's own screening and does not replace it. Whether a licence is needed is a matter for Northwind Cloud, ITAD A and their trade advisers.

REQUEST

signed by ITAD A's authorised officer

SIGNED ONLINE · ITAD

SHA256 E8BBA158…40E0C8

I request Northwind Cloud's approval to sell the 16 units listed to the buyer named, for delivery to the destination stated. No unit will be sold before approval is given.

DECISION

Northwind Cloud

APPROVED ONLINE · CUSTOMER

SHA256 8F6D5B24…A59A0D

Approved for the 16 serials listed, this buyer and this destination only. Condition: end-user certificate signed by the buyer before shipment.

S. Patel
Disposition Compliance Lead, Northwind Cloud

14 Oct 2026 · 10:42 IST
Signed in with company single sign-on

What happens next. The approval is recorded against each serial. When ITAD A's sales report arrives, every sold GPU is matched to an approval by serial, and any sale without one is reported to Northwind Cloud.
